

TALBOT MEDICAL CENTRE, SOUTH SHIELDS

4 – 7 sessions Salaried GP with a view to partnership if desired

This is an exciting opportunity to be part of our close-knit team, and influence the ongoing development of our dynamic, progressive service.

- Enthusiastic, friendly and supportive partnership with a team of 5 GPs
- Caring, well-regarded family surgery with 8000 patients
- Medical and nursing student teaching
- Outside interests encouraged
- Part of the North East "Deep End" network, the only one in South Tyneside
- Start date negotiable

We are keen to find a new GP colleague who wants to be part of our team. We would welcome a salaried GP with or without a view to partnership. We are lucky to be a strong, loyal team of five GPs who work effectively together with a shared ethos.

We are excellently supported by three practice nurses, one health care assistant and two highly experienced nurse practitioners. We have a close working relationship with our practice manager, Stacey Reid, and have very supportive admin and reception staff with low staff turnover.

Members of the team are involved with teaching medical and nursing students in the surgery, South Tyneside Health Pathways, the RCGP Adolescent Health Group and NICE. We have a close relationship with our PCN and the wider South Tyneside Health Collaboration where Stacey is one of the directors.

Our patient population is very stable. We are proud of the reputation, built up over many years, which encourages generations to stay with our practice. We continue to innovate and have introduced care navigation and document management. Before COVID we held patient events such as coffee and social sessions for our more vulnerable and isolated elderly population and childhood health workshops for carers of young children.

Our CQC inspection rated us as good, with outstanding for children and young people and we also received the "You're Welcome" young person's award.

During COVID we adapted our appointment system, which continues to evolve. We are proud to say we continued to provide excellent access to our patients throughout and never locked our doors while encouraging remote access.

We offer a competitive salary and terms. Please contact Mrs Stacey Reid or any partner (Charlotte Winfield, Sharmila Parks, Matthew McCloskey) on 0191 4273450 for an informal chat.

Applications by CV to Mrs Stacey Reid, Talbot Medical Centre, Stanley Street, South Shields, NE34 0BX or email Stacey.reid3@nhs.net Closing date: Friday 21st May 2021
